Title: The "Welcome" book

Author: Prof. Yusef Ad-Din  
-----

The book next to this one, entitled "Welcome," was acquired from a dungeon occupied by the forces of the foul machine Exodus. It discusses a plot to replace certain prominent figures in Britannia with doppelgangers.

The best strategy to counter this is openness, and the public trust that can only thrive in openness.

We should not be suspicious of our neighbors or our leaders; but, surely, we should know them.

Also, let any who would doubt Exodus's malevolence heed the machine's own words. Here, and in Ver Lor Reg, and in the years and years prior.

-Professor Yusef Ad-Din
